## Use Cases Description

<b>Use Case ID:</b>	UC01		
<b>Use Case Name:</b>	Registration		
<b>Created By:</b>	Venkat Nitin	<b>Last Updated By:</b>	Wajdi Aljedaani
<b>Date Created:</b>	09-24-2015	<b>Date Last Updated:</b>	09-24-2015
<b>Overview:</b>	Registrant shall be able to provide personal information to the system upon registering.		
<b>Actors:</b>	Submitter/Author		
<b>Type:</b>	Primary		
<b>Preconditions:</b>	<ul style="list-style-type: none"> <li>- System has been setup and configured.</li> <li>- System is running and open for registrations.</li> <li>- Registrant has accessed website via URL</li> </ul>		
<b>Main Flow:</b>	<ol style="list-style-type: none"> <li>1. Registrant clicks on the Register from home page.</li> <li>2. System shows the registration page to registrant and ask for the personal information (name, email, address, contact information and password).</li> <li>3. Registrant fills out his/her personal information and click on submit.</li> <li>4. System verifies <del>required information is provided.</del></li> <li>5. System confirm the registration and redirect the registrant to home page.</li> </ol>		
<b>Alternative Flows 1:</b>	After Step (2) registrant clicks on Cancel button. <ol style="list-style-type: none"> <li>1. System redirects registrant to main page.</li> </ol>		
<b>Alternative Flows 2:</b>	After Step (4) if the registrant has entered an invalid information, System shows a message that personal information are invalid. <ol style="list-style-type: none"> <li>1. System redirect registrant to step 2.</li> </ol>		
<b>Post conditions:</b>	Registrant has registered successfully in the system.		
<b>Priority:</b>	1		

Is this user name for login, or is that separate?

What is invalid information?

<b>Use Case ID:</b>	UC02		
<b>Use Case Name:</b>	Login		
<b>Created By:</b>	Wajdi Aljedaani	<b>Last Updated By:</b>	Wajdi Aljedaani
<b>Date Created:</b>	03-10-2015	<b>Date Last Updated:</b>	05-10-2015
<b>Overview:</b>	Submitter/Author, PCC or PCM shall be able to provide credentials to login in the system.		
<b>Actors:</b>	Submitter/Author, PCC, PCM		
<b>Type:</b>	Primary		
<b>Preconditions:</b>	- Submitter/Author, PCC or PCM must be registered in the system.		
<b>Main Flow:</b>	<ol style="list-style-type: none"> <li>1. Submitter/Author, PCC or PCM clicks on login page.</li> <li>2. System displays the login page and request from the user (Submitter/Author, PCC or PCM) to insert login details (username, password).</li> <li>3. Submitter/Author, PCC or PCM inserts login information and click on submit.</li> <li>4. System verifies the credentials and redirects Submitter/Author, PCC or PCM to home page.</li> </ol>		
<b>Alternative Flows 1:</b>	<p>After Step (3) User has entered an invalid login information, System displays message that the inserted information (Username and Password) are incorrect.</p> <ol style="list-style-type: none"> <li>1. System redirect the user to Step2.</li> </ol>		
<b>Post conditions:</b>	User has been logged in successfully to the system.		
<b>Priority:</b>	1		

<b>Use Case ID:</b>	UC03		
<b>Use Case Name:</b>	Submit paper		
<b>Created By:</b>	Venkat Nitin	<b>Last Updated By:</b>	Wajdi Aljedaani
<b>Date Created:</b>	28-09-2015	<b>Date Last Updated:</b>	05-10-2015
<b>Overview:</b>	Submitter/Author shall be able to submit paper to the system.		
<b>Actors:</b>	Submitter/Author, PCM		
<b>Type:</b>	Primary		
<b>Preconditions:</b>	<ul style="list-style-type: none"> <li>- Author must be logged in to the system.</li> <li>- Author must use a paper format in (PDF or Microsoft Word).</li> </ul>		
<b>Main Flow:</b>	<ol style="list-style-type: none"> <li>1. Author clicks on the submit paper option.</li> <li>2. System displays submit paper page.</li> <li>3. Author fill out the template information of submission (author information and contact information) with proper format.</li> <li>4. System verifies the information.</li> <li>5. System confirm the submission and redirects Author to home page.</li> </ol>		
<b>Alternative Flows 1:</b>	After Step (3) If the Author upload an invalid format, System displays message that the format is invalid. <ol style="list-style-type: none"> <li>1. System redirects Author to Step 2.</li> </ol>		
<b>Alternative Flows 2:</b>	After Step (3) Author clicks on Cancel button. <ol style="list-style-type: none"> <li>1. System redirects Author to main page.</li> </ol>		
<b>Post conditions:</b>	Author has been submitted his paper successfully to the system.		
<b>Priority:</b>	1		

Agree on a consistent date format. I see DD-MM-YYYY, MM-DD-YYYY, MM/DD/YYYY, etc.

Define what is "proper format." Is this the check to ensure the uploaded document is Word or PDF?

<b>Use Case ID:</b>	UC04		
<b>Use Case Name:</b>	Assign paper		
<b>Created By:</b>	Ian Shoenberger	<b>Last Updated By:</b>	Wajdi Aljedaani
<b>Date Created:</b>	9/24/2015	<b>Date Last Updated:</b>	05-10-2015
<b>Overview:</b>	PCC shall be able to assign paper to a three PCM's to review.		
<b>Actors:</b>	PCC, PCM		
<b>Type:</b>	Primary		
<b>Preconditions:</b>	<ul style="list-style-type: none"> <li>- PCC must be logged in to the system.</li> <li>- Submission paper must be in the system.</li> <li>- The PCM has chosen the paper for review.</li> </ul>		
<b>Main Flow:</b>	<ol style="list-style-type: none"> <li>1. PCC clicks on the assign paper option.</li> <li>2. System displays the list of papers that need to be assigned.</li> <li>3. PCC selects a paper that has not yet been assigned to three PCM's.</li> <li>4. System display details about the paper and shows a list of available PCM's</li> <li>5. PCC selects three PCM's from the list.</li> <li>6. System displays some kind of indication for which PCM has been selected initially.</li> <li>7. PCC submits their assignments.</li> <li>8. System assigned the paper success</li> <li>9. System gives privilege to the sel</li> </ol>		
<b>Alternative Flows 1:</b>	After Step (1) if there are not papers has submitted, System displays message that no paper to be assign.		
<b>Alternative Flows 2:</b>	After Step (2) if there are no enough PCM's (less than three), System will displays message that there are not enough PCM's in the system.		
<b>Alternative Flows 3:</b>	After Step (3) PCC clicks on Cancel button. 1. System redirects submitter to main page.		
<b>Post conditions:</b>	PCC has been assigned the paper successfully to three separate PCM's.		
<b>Priority:</b>	1		

Where does the PCC and system take into account the PCM's selections of papers they prefer to review?

What are the postconditions for the alternate flows?

<b>Use Case ID:</b>	UC05		
<b>Use Case Name:</b>	Access paper		
<b>Created By:</b>	Wajdi Aljedaani	<b>Last Updated By:</b>	Wajdi Aljedaani
<b>Date Created:</b>	24/09/2015	<b>Date Last Updated:</b>	05-10-2015
<b>Overview:</b>	Submitter/Author, PCC or PCM shall be able to access submission paper in the system.		
<b>Actors:</b>	Submitter/Author, PCC, PCM		
<b>Type:</b>	Primary		
<b>Preconditions:</b>	<ul style="list-style-type: none"> <li>- Submitter/Author, PCC or PCM must be logged in to the system.</li> <li>- Submit paper must be in the system.</li> </ul>		
<b>Main Flow:</b>	<ol style="list-style-type: none"> <li>1. Submitter/Author, PCC or PCM clicks on the submission papers page.</li> <li>2. System displays all the paper that has been submitted.</li> <li>3. If the user is PCC displays all the list of paper that has submitted. PCC selects the paper that he/she wants to access.</li> <li>4. System displays the content of selected paper.</li> </ol>		
<b>Alternative Flows 1:</b>	<ol style="list-style-type: none"> <li>2.E.1 If the user is Author, System displays all the paper that he/she has submitted. Author selects the paper that he/she would like to access.</li> <li>2.E.2 System displays the content of the selected paper to Author.</li> </ol>		
<b>Alternative Flows 2:</b>	<ol style="list-style-type: none"> <li>2. F.1 If the user is PCM, System displays all the paper that he/she has submitted. PCM selects the paper that he/she would like to access.</li> <li>2.F.2 System displays the content of the selected paper to PCM.</li> </ol>		
<b>Alternative Flows 3:</b>	2.G.1 If there is not paper in submission papers page, System displays that there is no submission paper.		
<b>Alternative Flows 4:</b>	After Step (3) Submitter/Author, PCC or PCM clicks on Cancel button. <ol style="list-style-type: none"> <li>1. System redirects Submitter/Author, PCC or PCM to main page.</li> </ol>		
<b>Post conditions:</b>	Submitter/Author, PCC or PCM has been successfully access the paper in the system.		
<b>Priority:</b>	2		

<b>Use Case ID:</b>	UC06		
<b>Use Case Name:</b>	Generate report		
<b>Created By:</b>	Muhammad Fazalul Rahman	<b>Last Updated By:</b>	Wajdi Aljedaani
<b>Date Created:</b>	24/09/2015	<b>Date Last Updated:</b>	05-10-2015
<b>Overview:</b>	PCC shall be able to generate reports based on the reviews submitted by the PCM.		
<b>Actors:</b>	PCC		
<b>Type:</b>	Primary		
<b>Preconditions:</b>	<ul style="list-style-type: none"> <li>- PCC must be logged in to the system.</li> <li>- Submit paper must be in the system.</li> <li>- PCM must submit paper review to PCC.</li> </ul>		
<b>Main Flow:</b>	<ol style="list-style-type: none"> <li>1. PCM sends a review paper to PCC.</li> <li>2. System sends a notification to PCC for submission review paper which made by PCM.</li> <li>3. PCC gets a notification that PCM have submitted the review for assigned paper. PCC access the paper and reads the reviews.</li> <li>4. PCC generates report based on the review of PCM and submit to the submitter. <span style="border: 1px solid red; padding: 2px;">Detail the contents of the report.</span></li> <li>5. System sends the generated report to the submitter and shows a confirmation screen for PCC.</li> <li>6. Submitter notifies for the report for the submission paper that was generated by PCC. <span style="border: 1px solid red; padding: 2px;">← ?</span></li> </ol>		
<b>Alternative Flows 1:</b>	Not applicable		
<b>Post conditions:</b>	PCC has been generated report of submission paper successfully.		
<b>Priority:</b>	2		

<b>Use Case ID:</b>	UC07		
<b>Use Case Name:</b>	Choose paper		
<b>Created By:</b>	Ian Shoenberger	<b>Last Updated By:</b>	Wajdi Aljedaani
<b>Date Created:</b>	24/09/2015	<b>Date Last Updated:</b>	05-10-2015
<b>Overview:</b>	PCM shall be able to choose paper from an available set to tag papers he/she would like to later review.		
<b>Actors:</b>	PCM		
<b>Type:</b>	Primary		
<b>Preconditions:</b>	<ul style="list-style-type: none"> <li>- PCM must logged in to the system.</li> <li>- Submitted paper must be in the system.</li> </ul>		
<b>Main Flow:</b>	<ol style="list-style-type: none"> <li>1. PCM selects to view all available papers.</li> <li>2. System displays all available papers by name and author(s) on</li> <li>3. PCM selects an available paper.</li> <li>4. System indicates that the PCM has selected a paper.</li> <li>5. PCM may repeat step 3. For as many papers are available.</li> <li>6. PCM submits his/her selection.</li> <li>7. System records the selections made by the PCM.</li> <li>8. System indicates to the PCM that their choices have been recorded.</li> </ol>		
<b>Alternative Flows 1:</b>	After Step (1) if there is no paper submission, System displays that there is no submission paper.		
<b>Alternative Flows 2:</b>	After Step (3) PCM clicks on Cancel button. <ol style="list-style-type: none"> <li>1. System redirects PCM to main page.</li> </ol>		
<b>Post conditions:</b>	PCM has chosen paper from the list successfully in the system.		
<b>Priority:</b>	1		

For a blind review, paper title and abstract, but no author information.

Is the PCC notified?

<b>Use Case ID:</b>	UC08		
<b>Use Case Name:</b>	Evaluate paper		
<b>Created By:</b>	Venkat Nitin	<b>Last Updated By:</b>	Wajdi Aljedaani
<b>Date Created:</b>	24/09/2015	<b>Date Last Updated:</b>	05-10-2015
<b>Overview:</b>	PCM shall be able to evaluate paper which assigns by PCC. The PCM reads the papers and sends a review to the PCC. The PCC will analyzed and generate a report based on the PCM review.		
<b>Actors:</b>	PCM		
<b>Type:</b>	Primary		
<b>Preconditions:</b>	<ul style="list-style-type: none"> <li>- PCM must logged in to the system.</li> <li>- Submitted paper must be in the system.</li> <li>- Paper must be assigned to PCM.</li> </ul>		
<b>Main Flow:</b>	<ol style="list-style-type: none"> <li>1. PCM clicks on evaluating paper (review and rate) option.</li> <li>2. System displays all the list of paper for PCM that assigned from the PCC.</li> <li>3. PCM selects the paper he/she want to evaluate.</li> <li>4. PCM reads the paper that was assigned by PCC.</li> <li>5. System displays a template for evaluation of the assigned paper to PCM.</li> <li>6. PCM writes a review and rate the paper for the paper that was assigned and clicks submit.</li> <li>7. System sends the evaluation (review and rate) to PCC <del>in order to generate report.</del></li> <li>8. System redirects PCM to the home page.</li> </ol>		
<b>Alternative Flows 1:</b>	Not applicable		
<b>Post conditions:</b>	PCM has been evaluated paper successfully and sent to the PCC to generate report.		
<b>Priority:</b>	1		

In a separate use case.

<b>Use Case ID:</b>	UC09		
<b>Use Case Name:</b>	Modify review		
<b>Created By:</b>	Muhammad Fazalul Rahman	<b>Last Updated By:</b>	Wajdi Aljedaani
<b>Date Created:</b>	24/09/2015	<b>Date Last Updated:</b>	05-10-2015
<b>Overview:</b>	PCC shall be able to find conflicts and notifies the PCM who has to re-review the submission.		
<b>Actors:</b>	PCM		
<b>Type:</b>	Primary		
<b>Preconditions:</b>	<ul style="list-style-type: none"> <li>- PCM shall be logged in to the system.</li> <li>- Submitted paper must be in the system.</li> <li>- Paper review shall has a conflict by PCMs.</li> </ul>		
<b>Main Flow:</b>	<ol style="list-style-type: none"> <li>1. PCC send a request to the PCM about the conflict review.</li> <li>2. System notifies the PCM about the review conflict.</li> <li>3. PCM receives the notification about the conflicting review and get access to the other PCM's review to discuss the viewpoints.</li> <li>4. PCM submits new review in the review submission page.</li> <li>5. System sends the new review to PCC.</li> <li>6. PCC notifies of the new review and confirm the submission.</li> <li>7. System sends the confirmation of the review to PCM.</li> <li>8. PCM notifies about the confirmation of the review.</li> </ol>		
<b>Alternative Flows 1:</b>	After Step (3) PCM clicks on Cancel button. <ol style="list-style-type: none"> <li>1. System redirects PCM to main page.</li> </ol>		
<b>Post conditions:</b>	PCM has been resolved the conflict review successfully.		
<b>Priority:</b>	3		

The PCC is ultimately responsible for resolving the conflict across PCMs.

Does the system have any requirements to facilitate this discussion?

? Grammar issue?

PCC?

<b>Use Case ID:</b>	UC10		
<b>Use Case Name:</b>	Set deadline		
<b>Created By:</b>	Wajdi Aljedaani	<b>Last Updated By:</b>	Wajdi Aljedaani
<b>Date Created:</b>	24/09/2015	<b>Date Last Updated:</b>	05-10-2015
<b>Overview:</b>	Administrator shall be able to set up paper submission, review choice, review submission and author notification deadlines in the system.		
<b>Actors:</b>	Administrator		
<b>Type:</b>	Primary		
<b>Preconditions:</b>	- Administrator shall be logged in to the system.		
<b>Main Flow:</b>	<ol style="list-style-type: none"> <li>Administrator selects what he/she wants to set up deadline (paper submission, review choice, review submission and author notification).</li> <li>System displays the list of elements.</li> <li>Administrator clicks on a specific element.</li> <li>System displays the details about the selected element.</li> <li>Administrator set deadline information about the selected element. Administrator can also update the deadline details or disable the element. Administrator clicks submit.</li> <li>System confirms that the deadline were set and redirects the Administrator to the home page.</li> </ol>		
<b>Alternative Flows 1:</b>	After Step (3) Administrator clicks on Cancel button. <ol style="list-style-type: none"> <li>System redirects Administrator to home page.</li> </ol>		
<b>Post conditions:</b>	Administrator has set deadlines successfully in the system.		
<b>Priority:</b>	2		

<b>Use Case ID:</b>	UC11		
<b>Use Case Name:</b>	Create template		
<b>Created By:</b>	Muhammad Fazalul Rahman	<b>Last Updated By:</b>	Wajdi Aljedaani
<b>Date Created:</b>	24/09/2015	<b>Date Last Updated:</b>	05-10-2015
<b>Overview:</b>	Administrator shall be able to create templates for Notifications and Reviews.		
<b>Actors:</b>	Administrator		
<b>Type:</b>	Primary		
<b>Preconditions:</b>	- PCM must logged in to the system.		
<b>Main Flow:</b>	<div> <div>What happened to step 1?</div> <div>Detail the information and controls available on the page.</div> </div> <ol style="list-style-type: none"> <li>Administrator opens the create template page.</li> <li>System displays the create template page to the administrator.</li> <li>Administrator create template fields (review and rate) and submits the form.</li> <li>System confirm the submission and redirect the administrator to home page.</li> </ol>		
<b>Alternative Flows 1:</b>	After Step (3) Administrator clicks on Cancel button. <ol style="list-style-type: none"> <li>System redirects Administrator to home page.</li> </ol>		
<b>Post conditions:</b>	Administrator has been created template successfully and can be used by PCC and PCM		
<b>Priority:</b>	2

<b>Post conditions:</b>	System has saved all the changes successfully that made by the Administrator.		
<b>Priority:</b>	3		

What are the details of a reminder?

## Architecture model

This looks like the generic Django model. Where do your classes from your design class diagram belong?

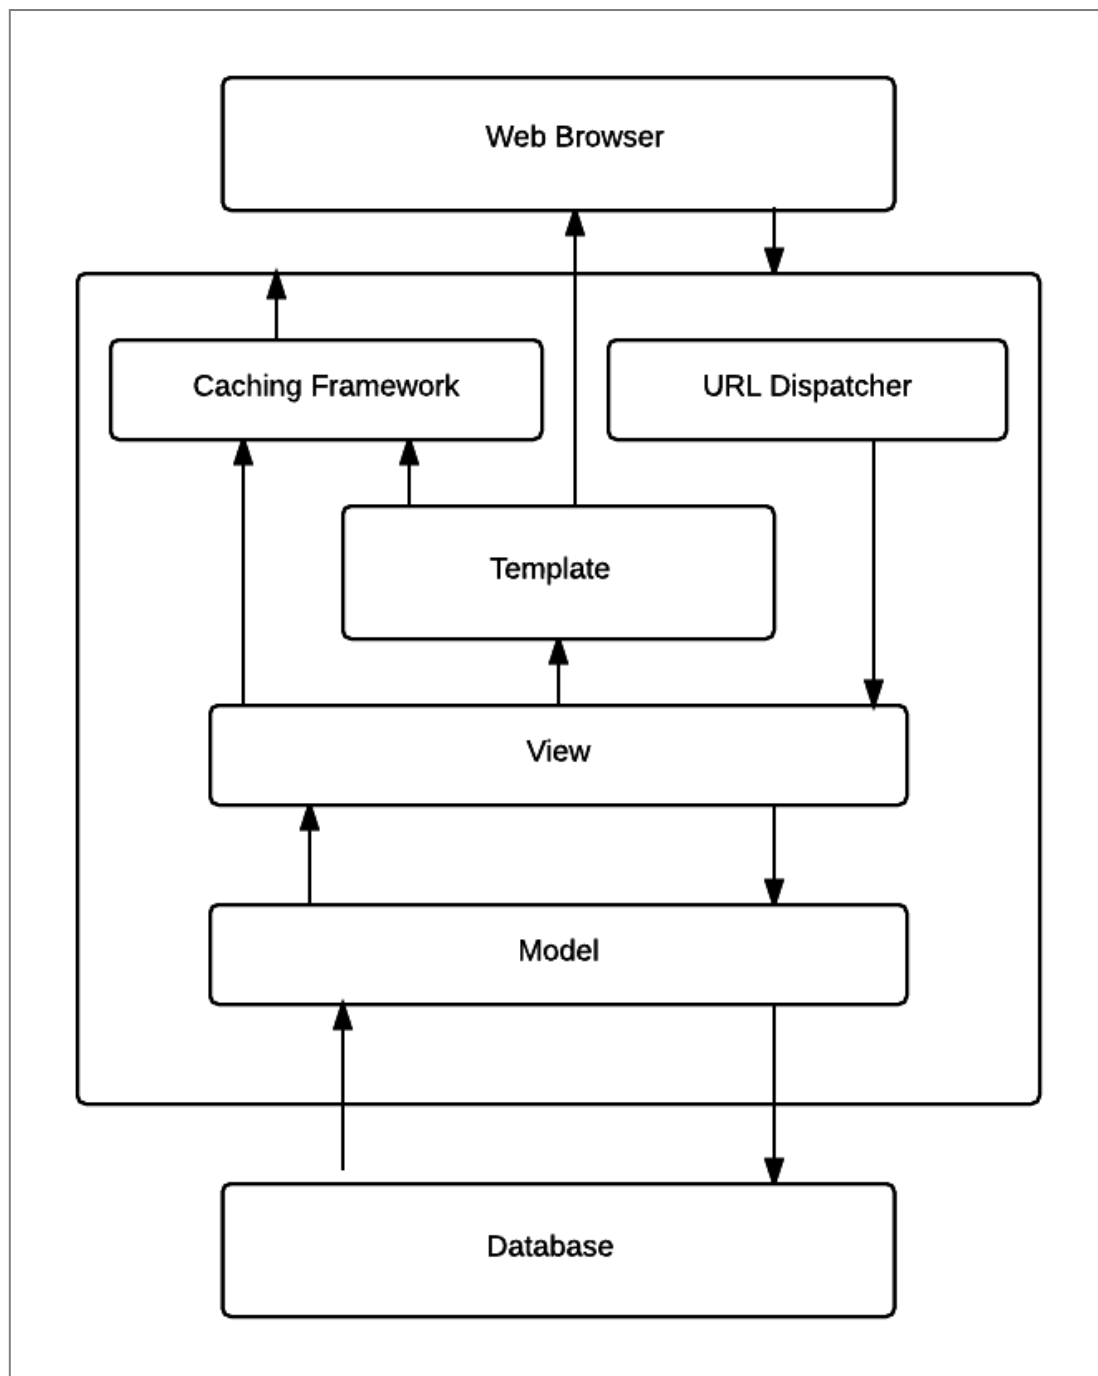

Figure 2 Architecture model

The notation seems to be a generic box and arrow diagram, not UML.

## Domain Model

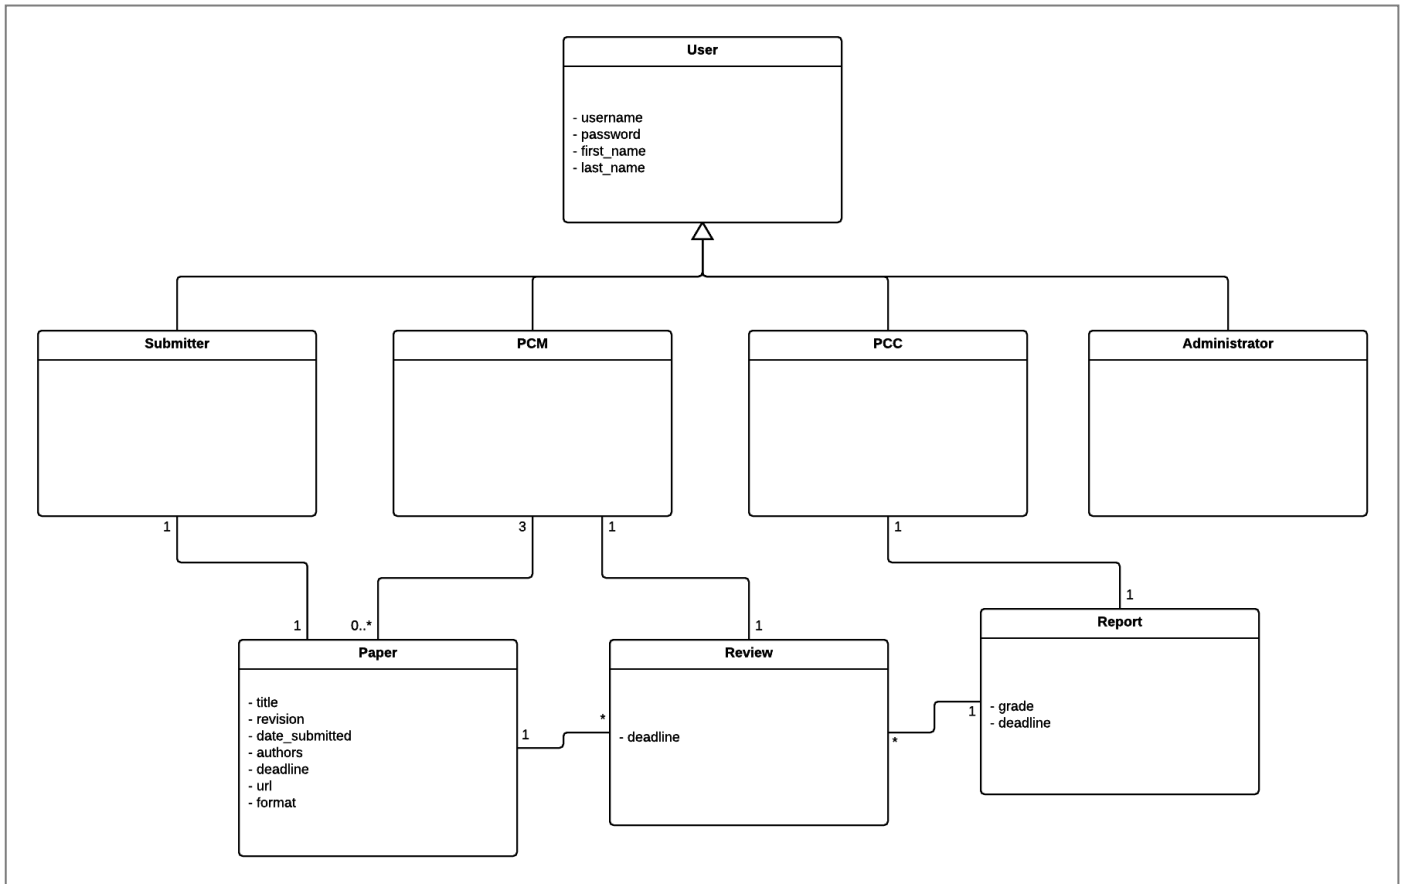

Figure 3 Domain model

## Design class diagram

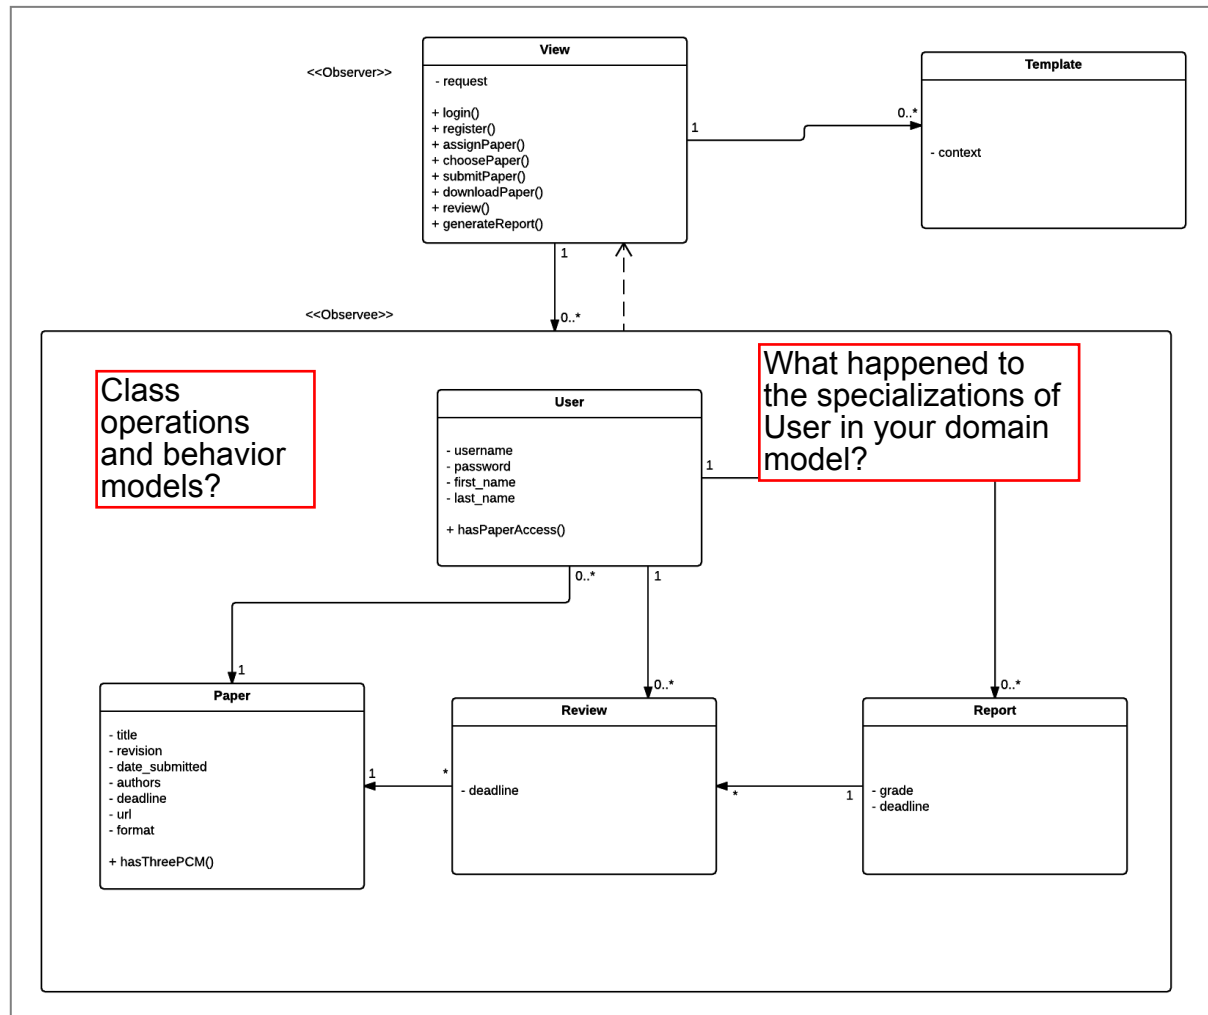

Figure 4 Design class diagram

I could not trace this to your implementation model

## System sequence diagram

### Submit paper

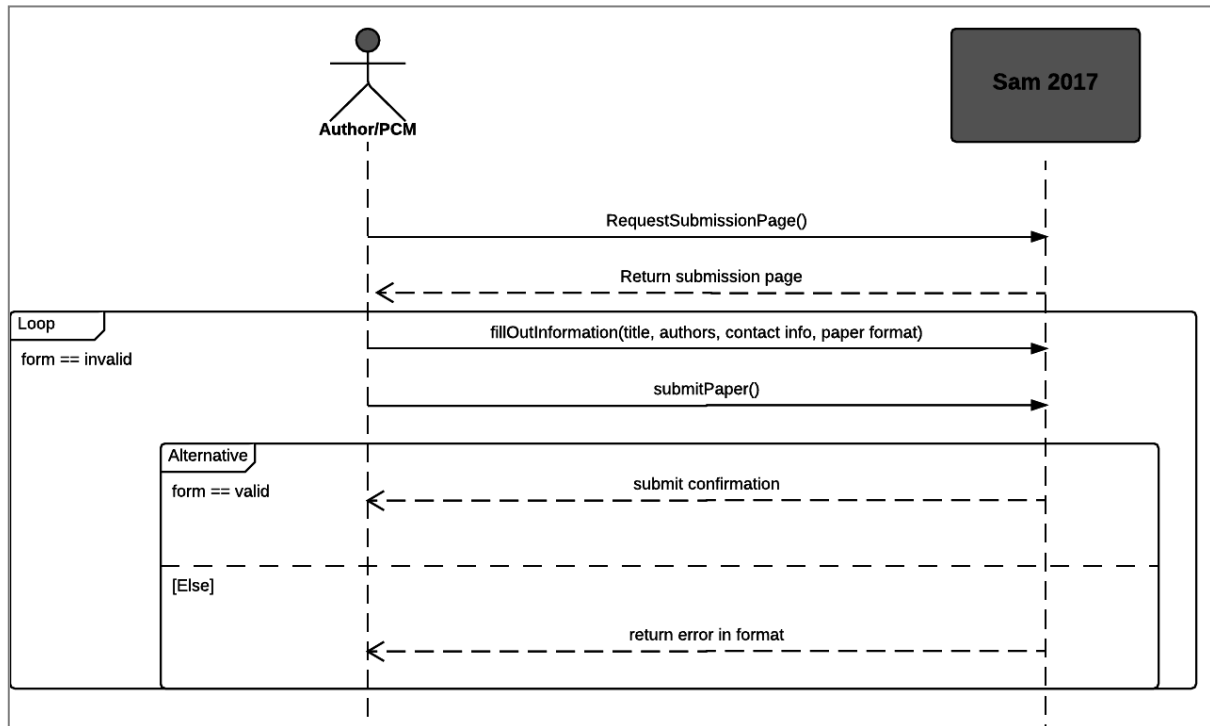

Figure 5 System sequence diagram (Submit paper)

## Assign paper

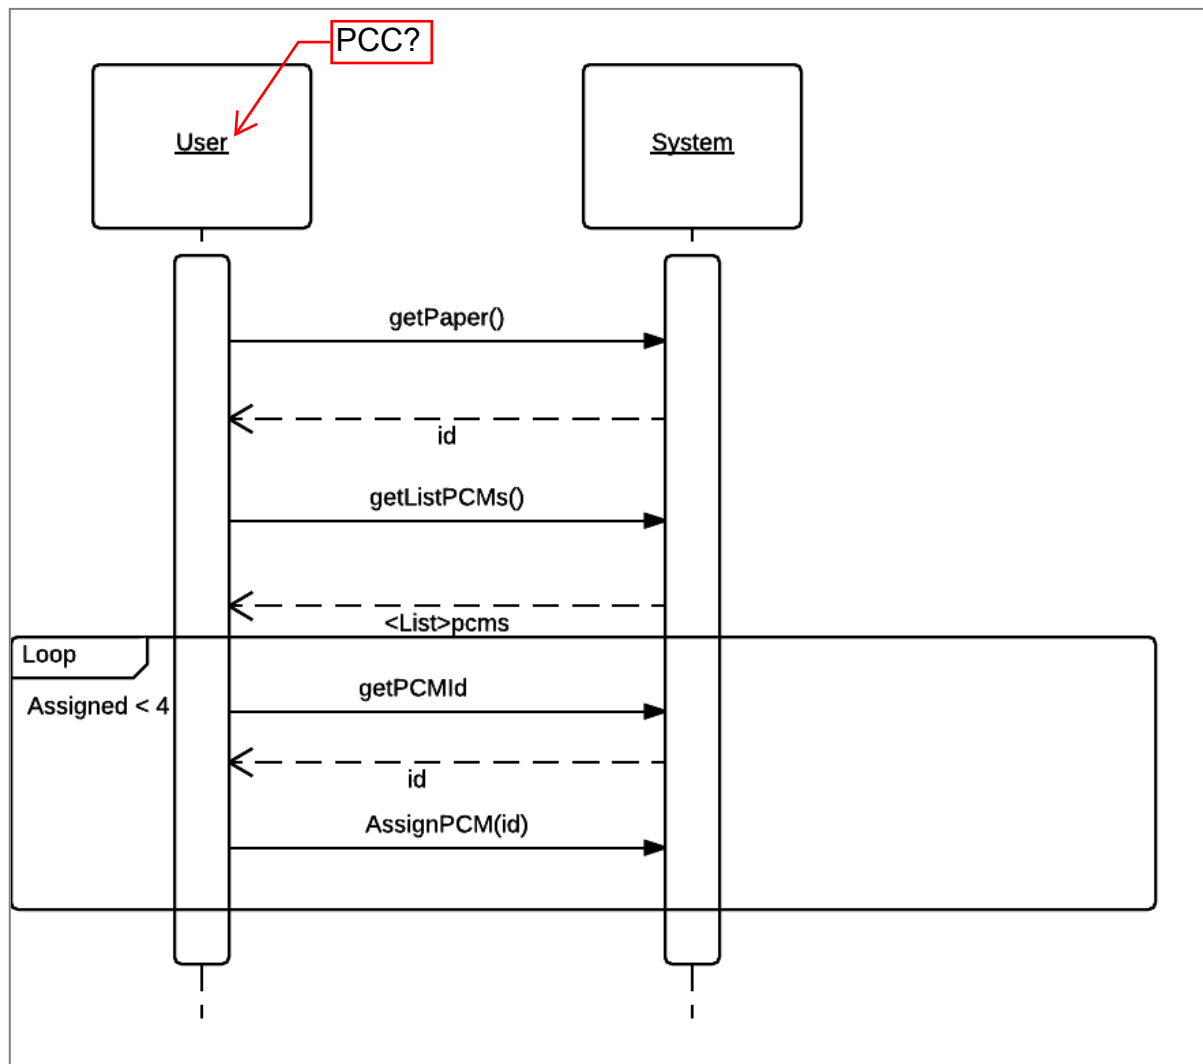

Figure 6 System sequence diagram (Assign paper)

## Generate report

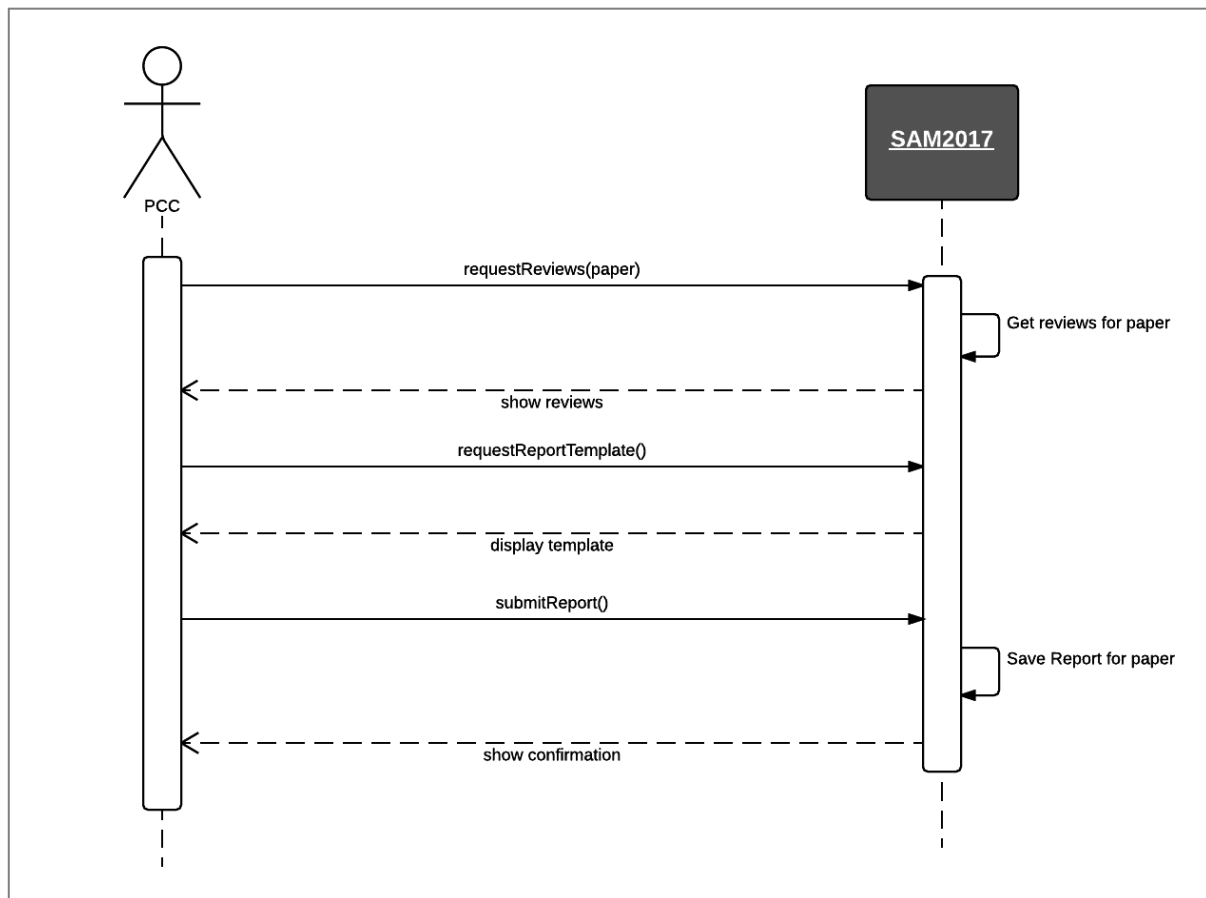

Figure 7 System sequence diagram (Generate paper)

## Behavioural diagram

### Sequence diagram

I would expect Paper, Review, and other classes to be involved.
